

Holistic Health Care and their Therapists

Holistic Health Care and their therapists greet you and hereby inform you that we have brought to El Paso, Texas approximately seven years ago the latest in alternative medicine, the Medical Biomagnetic pair. After several years of serving our community offering various services of alternative medicine, such as massage therapy, relaxation massage (Swedish), Reiki, Iridology, ionic detoxification, thermal Jade massage, hydrotherapy, skin care, and nutritional supplements and herbs among others, were personally instructed by the doctor and Mexican scientist, Dr. Isaac Goiz Duran in the use and application of the medical Biomagnetic pair treatment which he discovered.

Holistic Health Care therapists are graduates of the College of Pharmaco-biology, research program of the Medical Biomagnetic Pair of the Universidad Michoacana de San Nicolás de Hidalgo, located in Morelia, Michoacán, Mexico. We have a massage therapist, a massage instructor licensed by the State of Texas Department of Health, also as a provider of continuing education for massage therapists. Holistic Health Care offers the services of a teacher trained in the Mastery of the Self (mental yoga and meditation) under the guidance and advice of the Monk, Leader and Spiritual guide, Maharishi Krishnananda Ishaya, in Spain. It is the purpose of Holistic Health Care to help our community through its services with the most advanced alternative medicine, non-invasive and without harmful side effects and pain-free. We do not treat the symptoms but the cause. We offer care for mind, body and spirit as a whole.
